

## Grading Scale Representations

Assignment Item	Percent of Grade %
Mastering Chemistry Homework	8.0%
Mastering Chemistry	8.0%
Final	30.0%
Midterm	20.0%
Syllabus Quiz and Surveys	1.0%
Discussions	3.0%
Written Assignments	8.0%
Quizzes	20.0%
Dynamic Study Modules	2.0%
Ungraded	0.0%
Total	100%

The pie chart is much better for representing the percentages of the grading scale. It breaks up the amounts and represents them as parts of a whole, whereas the line graph is better at showing change over time.
